

PROUD to be AMERICAN

PROUD to BUY AMERICAN, SUPPORT AMERICANS and AMERICAN COMPANIES

Please visit www.support-USA.com for much more info

Remember, when your neighbor's job goes overseas:

- 1) They're no longer earning a wage to purchase your product or service
- 2) They're no longer contributing to the U.S. tax base
- 3) They're no longer developing skills to keep our industry and country strong

What is American? What is "American" is often debated, but a product is truly American if these components are true:

- 1) American Owned Company
 - _ If it's American owned, the profits come home
 - _ If it's American owned, most of the highly skilled labor is in America
 - _ If it's American owned, Americans have decision making authority
- 2) Designed and Engineered in America
 - _ Employment of Highly Skilled Labor
- 3) Assembled in America
 - _ Employment of Low Skilled Labor

EVERY foreign product we purchase directly sends money and jobs overseas. You can make a difference by giving this thought and discussing with others. Please consider supporting American Products, American Companies and American jobs.

Top Deficit Countries in U.S. 2005 Trade (\$ Billions)

China \$185 Japan \$76 Canada \$68 Germany \$46 Mexico \$46
